constitute "sources of business information that might harm a litigant's competitive standing." See, e.g., Nixon v. Warner Commc'ns, Inc., 435 U.S. 589, 598 (1978); In re McClatchy Newspapers, Inc., 288 F.3d 369, 370-71 (9th Cir. 2002).

The current litigation between SGT and MFI centers on a patent assignment agreement regarding the transfer of certain MFI patents and license agreements from MFI to SGT. A third party, MagnaDrive Corporation ("MDC"), is a licensee to the MFI patents pursuant to its license agreement with MFI. MDC is not only a competitor to SGT and MFI in the magnetic coupling market, but is a party to a separate litigation pending before the Court of Appeals of the State of Washington involving the patent assignment agreement and MDC license agreement. Therefore, SGT's and MFI's competitive standings will be harmed if the confidential business information contained in the Motion and the supporting declaration and exhibits are not protected from public dissemination.

In keeping with the Court's local rules governing motions to seal, the Parties conferred telephonically on May 29, 2013 to minimize the amount of materials filed under seal. The parties have agreed that some exhibits attached to the Erickson Declaration and Li Declaration need not be sealed despite being designated "Confidential" by the producing party during discovery and have withdrawn the confidentiality as necessary.

For the documents that SGT seeks or the parties jointly seek to file under seal, the specific reasoning and support for why ach of the documents should be sealed is provided below in compliance with Local Rule W.D. Wash. 5(g)(3)(B). SGT and MFI seek to file under seal the following:
